Training of aviation pilots

The declaration of Quality Policy collects as a master lines:

1. The commitment of accomplishing with the applicable requirements, legal ones included.
2. From the strategic lines defined in the context analysis, the aims of the company have been defined, which have been spread in all levels of our structure.
3. To introduce the Quality indicators, as well as performing the progress level monitoring of the indicators, so this way we can meet and assure the product and the satisfaction level desired for our clients.
4. To ensure that working conditions are optimal by assessing the risks that may occur in the processes, eliminating them as much as possible and reducing those evaluated.
5. To develop continuous training programs tending to the best qualification of our employees, involving this way all staff in the commitment of the established aims in the present document.
6. The commitment for the continuous improvement of the management system established on our company.
7. To encourage and to achieve a motivating atmosphere to all staff of the company.

The Management makes this policy accessible and available to all clients, staff, suppliers and interested parties.

The Policy is updated by regular revisions, coinciding with the system revisions by the management, with the aim of taking into account the changes on the environment conditions and the information received. In that sense, the management provides and will provide all the human, technical and financial means necessary to achieve the aims and goals that are established regularly and periodically.

The Management.
